SCOPE

ISCIT 2026 Intelligent Media Network Workshop promotes the in-depth exploration of how to achieve a more efficient and intelligent connectivity ecosystem through innovative communication and system design, foundational theoretical support, intelligent algorithm optimization, and emerging application scenarios. Scientists, engineers, and students are encouraged to get involved.

SUBMISSIONS

Papers should be written in English with a maximum paper length of six (6) printed pages including figures without incurring additional page charges. Submitted papers must be original work, and may not be under consideration for another publication. All manuscripts will be reviewed according to standard procedures before being accepted for publication in the conference proceedings. Papers can be rejected if the quality of science and/or language is insufficient and there will be a strict and critical review process in place. The paper must follow the formatting guidelines. Papers can be submitted via EDAS:
